สมาคมวิทยาการจราจรและขนส่งแห่งประเทศไทย  
THAI SOCIETY FOR TRANSPORTATION AND TRAFFIC STUDIES

February 12, 2015

Dear TSTS member,

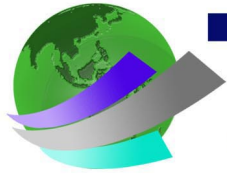

I write to invite you to renew your valued membership of the Thai Society for transportation & Traffic Studies (TSTS). As you know we are the only domestic transportation society with networking with 18 international societies of transportation in eastern Asia under the umbrella of EASTS, these include all 10 member countries of ASEAN. This year EASTS is organizing an International Conference in CEBU, Philippines, as a member you will enjoy the privilege of attending the conference at a special prize and also the privilege of submitting a conference paper. On the domestic front your society will be organizing an international conference in April this year and you are most welcomed to attend as a member. (please visit our website for more info.)

We are also endeavoring to discuss issues which are important to the advancement of Thailand towards a leading country in Asia. So I ask you to join us again to help support your professional society and in doing so help support the development of a safe, efficient, equitable transport system for Thailand.

Thank you for your continued support

Yours truly,

Pichai Taneerananon  
President of TSTS
